SUMMARY

Aspiring DevOps Engineer with hands-on knowledge of AWS, Azure, GCP, Linux, Docker, Kubernetes, Terraform, Jenkins, and Git. Skilled in cloud infrastructure, containerization, Infrastructure as Code (IaC), and CI/CD concepts with a strong foundation in automation and system administration. Passionate about building scalable, reliable, and secure cloud solutions while continuously learning modern DevOps practices.

EDUCATION

Bachelor of Technology (B.Tech)- Computer Science and Engineering Parul University CGPA: 7.02	2022 – 2025 Vadodara, Gujarat
Diploma (SBTET), CSE Smt. B. Seetha Polytechnic College Percentage: 77.35%	2019 – 2022 Bhimavaram, Andhra Pradesh
Secondary Education (10th) Dr. KKR's Gowtham High School Percentage: 85%	2018 – 2019 Guntur

SKILLS

- **Cloud Platforms** : AWS, Microsoft Azure, Google Cloud Platform (GCP)
- **DevOps Tools** : Git, GitHub, Docker, Kubernetes, Jenkins, Azure DevOps
- **Iac** : Terraform, Ansible
- **Monitoring** : Prometheus, Grafana, Azure Monitor
- **Scripting Languages**: Linux, Bash, PowerShell, Python
- **CI/CD Pipelines**: Jenkins, GitHub Actions
- **Programming**: Python (Basic)
- **Web Technologies** : HTML, CSS
- **Soft Skills**: Time Management, Creative Thinking, Communication

PROJECTS

Hospital Management System <i>React.js</i>	Dec 2024 – Mar 2025
* Developed a web-based hospital management system to streamline patient and hospital operations. * Implemented centralized storage and management of patient records, including medical history, diagnostic reports, treatment plans, and allergies. * Designed an intuitive user interface for efficient access to patient information and healthcare workflows. * Improved data accessibility by organizing patient records into a structured and centralized database for quick retrieval. * Enhanced application usability by implementing responsive layouts and intuitive navigation to provide a seamless user experience across devices.	
Phishing Detection System <i>Web Application</i>	2023 – 2024
* Developed a web application to detect phishing URLs and malicious links shared through emails and websites. * Focused on identifying potentially harmful links to improve user security and reduce phishing attacks. * Built a user-friendly interface for submitting URLs and displaying detection results. * Implemented URL validation and analysis techniques to classify suspicious links based on predefined security indicators. * Improved application reliability by handling invalid inputs, enhancing detection accuracy, and providing clear security alerts to users.	

CERTIFICATIONS

Machine Learning Intern Prodigy Infotech
* Worked on machine learning projects involving data preprocessing, model building, and model evaluation using Python.
Web Development Intern Code Alpha
* Developed responsive web applications using HTML, CSS, JavaScript, and modern web development practices.
Web Development Intern Tech Intern Hub
* Built interactive web pages and enhanced front-end functionality using HTML, CSS, and JavaScript.
